WORLD POST DAY

The Pre-Primary section observed World Post Office Day to create awareness among young learners about the significance of postal services in everyday life. The celebration aimed to help children understand how communication was carried out before the digital era and to appreciate the vital role of postal workers in connecting people across distances. A model post office setup enabled the students to experience posting letters and greeting cards, fostering both curiosity and learning. The event successfully instilled respect for community helpers while promoting awareness about the importance of traditional communication systems.

DIWALI CELEBRATION

The school celebrated Diwali with grace and grandeur, uniting students from Pre-Primary to Grade 10 in a joyful expression of tradition and togetherness. The festivities featured cultural performances, diya decoration and vibrant displays that illuminated the true essence of the festival of lights. The celebration beautifully reflected the values of harmony, positivity and the triumph of light over darkness.

ENVIRONMENTAL LEARNING

Students of Grades 9 and 10 visited the Toyota Experiential Environmental Learning Centre in Bangalore, where they explored innovative sustainability practices and eco-friendly technologies. The hands-on sessions deepened their understanding of waste management, energy conservation and environmental responsibility. The educational excursion inspired learners to adopt greener habits and appreciate the role of technology in building a sustainable future.

ADHYAPAN

In the recent Adhyapan session with children from the nearby School, students learned about the vital concept of good touch and bad touch, empowering them to understand personal boundaries and safety. The session was made more engaging with a creative Diya-making activity, allowing the children to express themselves artistically while reinforcing important safety messages. This thoughtful blend of education and creativity provided a nurturing environment for the children to learn and grow confidently.

WORLD KINDNESS DAY

World Kindness Day was celebrated with warmth and joy by our Pre-Primary students, who participated in simple acts of sharing, helping and spreading smiles. Through stories, songs and creative craft activities, children learned the value of being kind to others and themselves. The day fostered empathy, compassion and the spirit of friendship among our young learners.
